

simalube® IMPULSE

Fully automatic pressure booster for simalube lubricators

The simalube IMPULSE is a fully automatic, electromechanical pressure booster for simulube lubricators. A dispensing time between 1 and 12 months is set on the simalube lubricator, which supplies the system with lubricant. The pressure booster transforms the continuous flow of lubricant from the simulube into lubrication bursts of about 0.5 ml in volume and a pressure of up to 10 bar. This feature is monitored by a logic controller that has a blinking LED display (green/ red) to indicate the current operating mode. Power is supplied by a replaceable battery pack. The pressure booster can be reused multiple times.

Description simulube® IMPULSE

- Pressure booster simalube® IMPULSE
- Battery pack
- Function display LED (green/red)
- Connection thread G 1/4"

The simalube IMPULSE creates a pressure of up to 10 bar.

Technical Information simalube® IMPULSE simalube® IMPULSE Automatic pressure booster for the simalube lubricator **Drive system** Electromechanical Battery pack (alkaline), 6 V 2.3 Ah Power supply Battery pack (lithium) for low temperatures, 6 V 2.9 Ah **Function display** LED status display: green/red every 10 seconds **Dispensing volume** 0.5 ml per stroke **Working pressure** Up to 10 bar -10 °C to +55 °C **Operating temperature** Time settina 1 to 12 months - determined by the setting on the simalube **Lubrication rate** Depends on the size and settings of the simalube: 0.17 to 8.3 ml/day According to lubricator: 60 ml, 125 ml or 250 ml **Lubricator volume** Lubricant Grease up to NLGI 2 or oil Installation position Anv **Connection thread** G 1/4" with integrated non-return valve \emptyset 59 \times 85 mm **Housing dimensions Housing material** PET semitransparent 0.24 kg Weight **Protection rating** IP68 (dust- and waterproof) Warranty & 3 years from the production date or until 10 simalube lubricators (125 ml) have been emptied service life Recommended at +20 °C (+/-5 °C) Storage Protect against sunlight and store in a dry place (<65% humidity)

Features of the simalube® IMPULSE

- Pressure generation up to 10 bar
- Gentle on lubricants

Packaging unit

- Green/red LEDs indicate seven operating states
- Plug & Play no adjustments necessary
- Lubricating point remains sealed when changing simulube
 Compatible with simulube 60, 125, 250 ml and accessories
- Warranty: 3 years or 10 lubrication cycles
- Multiple usage
- IP68 (dust- and waterproof)
- Suitable for oil and grease up to NLGI 2

Dimensions and disposal of the simalube® IMPULSE

Dispose the battery pack in battery recycling

	mm	inch
а	R¹/₄′′	
b	Ø 59	Ø 2.32
С	10	0.39
d	75	2.95
